

## DEAR EDITOR....

### HER OPINION!

Editor,  
Torrance Press:  
To the People of Arkansas:  
Although this is not a new battle for the South, it is a most courageous one. I am proud to know that there are still some Americans left who have integrity, and intelligence to fight for their rights.

I am proud to be a resident of Torrance, All America City of the year—I am proud for one reason, there is not one negro resident in Torrance. However, located so close to L.A., where integration and intermarriage is accepted as their way of life—I feel our doom is also near.

My husband and I are some of the VERY few remaining natives of California. The vast majority have left because of the negro situation. Our home is for sale now, and we hope to join you in Arkansas—nothing is for sure, if you keep integration out—there will more than likely be many more like us. However, if it is impossible, I still congratulate you on your efforts and will still be proud to become a part of Arkansas.

I am 25 years old, mother of two small boys, college student majoring in physics with my Engineer husband—we are both veterans. I feel we are intelligent, respectable people—and that we are just as much entitled to a few rights as the negro.

Los Angeles has already suffered from integration. Some fought it, but by keeping it quiet each thought they were the only ones fighting. Naturally they gave up. The negro has "Bump Days" here, driving up to white drivers cars and bumping them to start fights—if unsuccessful, they then chop you and slam on their brakes. Resulting in your ramming the rear of the car—you are then cited for following too close, and responsible for all repairs, and also liable for a suit. They would not hesitate to sue. Coinciding with this little game—is the "Sidewalk Bump" held on the same day—where they jostle you around in crowds, bump into you dumping your packages, etc. At the same time "negro" men drive around yelling insults at white women, and they are never mild insults! If in court on a ticket, or any other charge they are always able to cry "prejudice."

My family has all moved to the San Fernando Valley to get away from them—my mother owns a \$28,000 home—but now they are getting into the valley too—though not too close to her. We originally left L.A. for the same reason. NOW we intend to leave the state!

I do feel Southern leaders have made one error—that is to state they are fighting for the purity of race. Paul Coates made a broadcast on TV last night which shows it leaves you open for question—on how pure is the white race?

Although American whites are basically a race in themselves after years of breeding with other caucasian races—some of these self-martyrs, especially in California, are using it as a means of retaliation.

The fight is NOT for PURITY, it is for PRESERVATION! It is the battle against extinction of the white American—result of black predominating over white through intermarriage!

The negro woman who related to me the information on prejudice among the negro—and in her church, the segregation by color tones, beauty of features, intellect, etc.—feels they do not want to be "Like" white people, they want to be "Be" white. She does not believe in inter-marriage nor integration.

In her words and mine, covetry is a sin—denial of one's parents, or ancestors is a sin. The negro who wants to deny his race—so denies his parents. (God has said to "honor thy mother and thy father.") The negro who does so—also covets not only another man's skin, blood and color, but his race and the women of his race.

The negro of California denies his ancestry—he claims he is Spanish, Cuban, Australian—but never African. If a man is a negro let him be one, admit it, keep it that way and be able to have some pride as a human being. Equal schools equals our equality rights—to be equal does not mean we must admit him to our own schools. Next they will have us living like their brothers the Africans and sharing our wife's bed with them! Otherwise tell me how are they to be that equal?

If I go to jail I don't care, but really, who wants to look forward to 20 years from now when my sons are the marrying age—to having them stroll down an aisle with a coal black negro face shining from the white bridal veil? Not Me!!!

Sincerely,  
MARY J. HULSE.

### HUMBLE THANKS

Editor,  
Torrance Press  
Just finished reading your Thursday issue of the Torrance Press. I must write this letter complimenting you on the fine job you and your staff are doing lately.

Your paper is looking more

and more professional. I know I take all the papers.  
Mrs. Charles Lewis

### ANNEXATION

Dear Sir:  
Incorporation promoters have set the pattern of propaganda for Lomita that has been used elsewhere. It follows the well-known tactics, borrowed from the Communists, of accusing the other fellow of the shady work which they are doing, or intend to do, themselves. According to them, people opposed to incorporation are issuing falsehoods, "fabricated propaganda," the misguided tools of vicious outsiders, getting money from illegitimate sources, using ghost writers in the pay of scoundrels, hiring professionals and what not.

They urge people to verify all statements they hear about incorporation. To which we add a fervent "Amen." Nothing could more quickly rid us of this deluge of phoney campaign promises, "home rule" gags, annexation boloney, mumbo-jumbo "consecration" of candidates by a high church official in a ceremony from which the public was discreetly excluded, padding a "committee" with names of children, aliens, non-residents and duplications, Bible quotations and claims that government agencies are slinging mud at all who oppose incorporation. Also their claims that official information about the revenues and costs of government are made accessible to them and denied to us, and claims that they, and they only, have brains enough to interpret such data.

Incorporation is a bad thing for Lomita. We intend to continue telling the voters why, and stand ready publicly to defend the truth of our statements against all comers. Our challenge to do so, published in the press, has stood for over a year with no takers.

Yours very truly  
L. E. ROSS, Chairman  
Committee Opposing Incorporation.  
Lomita Civic League.

### YWCA to Offer Bridge Classes

The YWCA bridge classes are offered Thursday afternoon beginning October 10 from 1 p.m. to 3 p.m. and Thursday evening from 8 to 10 p.m.

The instructor, Mrs. Barbara Howell, teaches Goren Count system for beginners and those who wish a refresher in basics of bridge.

## MOOSE 'CHILD SAFETY CRUSADE' CONTINUES

"Safety-training the bike rider in your family" is the second phase of a "Child Safety Crusade being promoted by the Torrance Lodge of the Loyal Order of Moose, Fred Lydy, lodge governor, announced this week.

Two out of every three boys and girls injured on bikes, according to traffic statistics, are hurt while violating traffic rules. The Moose are asking parents to test the knowledge of their children of the commonsense rules for safe-biking.

### Rules for safe-biking:

1. Keep your bike under control. This means no stunting or weaving.
2. On your bike, you're expected to obey the same laws the safeguard your dad when he's driving the family automobile.
3. Bicyclists should use the same hand signals as car drivers.
4. Obey traffic lights and come to a full stop at stop signs.
5. Walk your bike across busy streets and slow down at all intersections.
6. Don't hook rides on any type of moving vehicle.
7. Always give a vehicle the right of way at street corners and intersections. Don't whiz out of an alley or driveway without stopping to make sure the road is clear.
8. Above all, don't ride in the dark if you can help it. If you must ride at night, wear something white and turn on your lights.

### Defective bikes

One-fifth of all children hurt on bicycles, according to Joseph Platt, civic affairs chairman of the Moose lodge, are riding defective bikes. Some of the same mechanical skill that daddies put into keeping a younger child's toys repaired should go into making certain his older boy or girl is riding a vehicle that is in perfect condition.

Under the supervision of parents, children should take responsibility for the maintenance of their bikes. The bicycle is no more a toy than your automobile is.

Governor Lydy concluded his announcement with this remark: A youngster safety-trained in the use of his bicycle will never become an accident statistic!

### Parents to Meet Teachers Oct. 8

"Now is the time to meet the people" is the topic of the first association meeting of the 259th Place School PTA on October 8 at 2 p.m.

Miss Frances Dastarac, principal, will introduce the faculty and all parents attending will have an excellent opportunity to meet and talk to their child's teacher during a social time after the meeting.

Student speakers from the organizations that receive benefits from the Community Chest will give short talks on behalf of this organization.

### The Dentist Says:

ERNEST J. TARR, D.D.S.

## Use Old Teeth for New Plates

"I have worn dentures for years. Because of gum shrinkage they don't fit any more. I like the way the teeth look; so can they be used in a new plate?" asks Mrs. J. K. of Torrance.

Yes, the old teeth from your denture can be used in a new plate and can be used in such a way as to save you one-half the cost of a new plate.

The technique is this: A brand new impression is taken of the mouth and the old teeth are cut off the old plate and re-set exactly as they were onto the new plate. This works out wonderfully well where a new bite is not required. Completely brand new plastic is used throughout and the finished product is a brand new denture except for the fact that the teeth from the former plate are used.
